

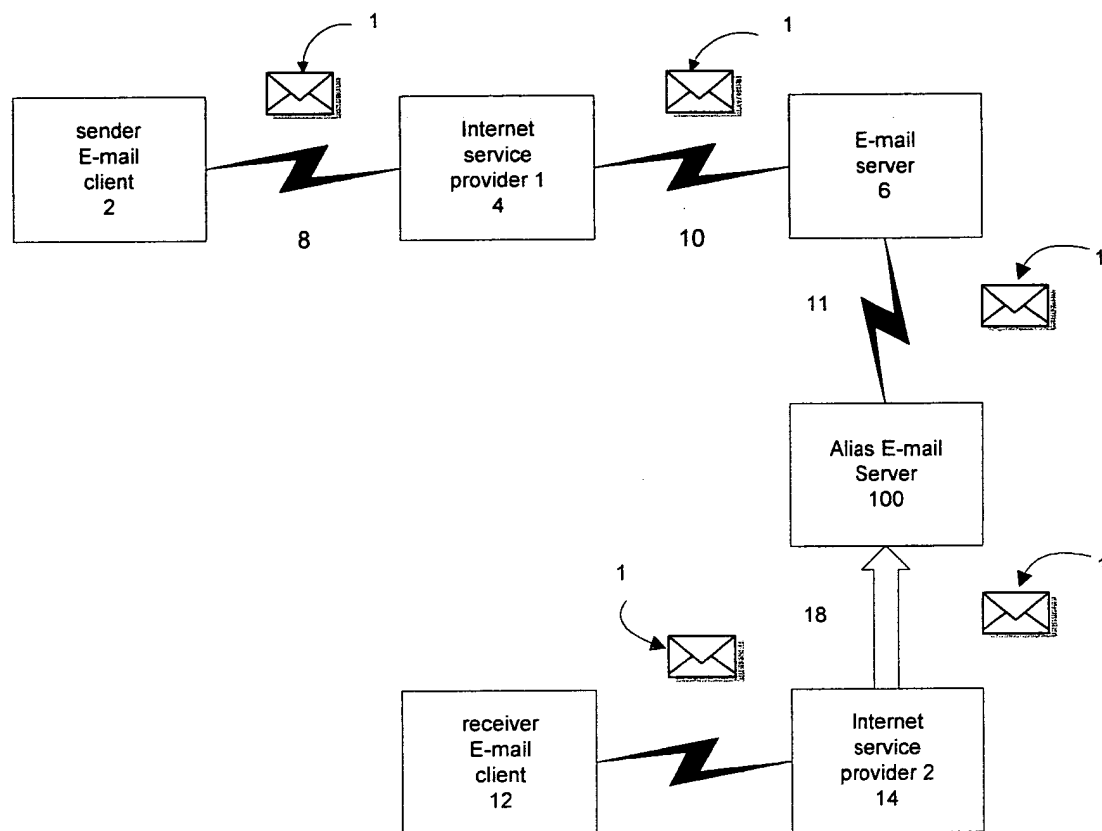

Fig. 1 (prior art)

The screenshot shows a web browser window titled "Spam Motel". The interface includes the following elements:

- 320**: A dropdown menu containing the text "marcus_1".
- 322**: An input field containing the email address "joedoe890@hotmail.com", with the label "e-mail address" below it.
- 324**: A button labeled "View Log".
- A link labeled "visit" with the URL "www.spammotel.com" below it.
- An input field for a "password" (masked with "xxxxxx") with the label "password" below it.
- A button labeled "Setup".
- A text prompt: "Supply the text you would like associated with this address".
- A hint: "Hint: Use something descriptive so you will know who this address was given to."
- A text input field containing "For computer components only".
- A section titled "Select the text you want to precede all emails forwarded from this Spam Motel Address".
- Four radio button options: "Fwd:", "Spam:", "Urgent:", and "Custom:". The "Custom:" option is selected.
- An input field next to the "Custom:" option containing the text "net shopping".
- A button labeled "Create New Address".
- A tab labeled "Basic" at the bottom of the form.
- 334**: A label pointing to the "Fwd:" radio button.
- 340**: A label pointing to the "Basic" tab.
